DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Findings of Scientific Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) has made final findings of scientific misconduct in the following case:

James H. Abbs, Ph.D., University of Wisconsin-Madison: Based on an investigation conducted by the Division of Research Investigations, ORI found that James H. Abbs, Ph.D., engaged in scientific misconduct by falsifying and fabricating certain figures and research results supported by Public Health Service (PHS) grants P01 NS13274 and P30 HD03352 and reported in "Orofacial motor control impairment in Parkinson's disease" (*Neurology* 37:394-398, 1987) (*Neurology* paper).

ORI found that Dr. Abbs falsified Figure 1 in the *Neurology* paper, which displays orofacial motor control instability in a Parkinson's disease patient reported as non-tremorous, by (1) tracing the waveforms from those of a tremorous patient that had previously been published as Figure 6 in the *Journal of Speech and Hearing Research* (26:616-621, 1983); (2) eliminating the apparent tremors from the waveforms depicted in Figure 6; (3) falsifying the standard force levels and structures from those of Figure 6; and (4) misrepresenting the identity of the actual subject reported in Figure 1. ORI

also found that Dr. Abbs falsified and fabricated the data for Figures 2 and 4 in the *Neurology* paper by (1) falsifying the number of trials run on each subject; (2) misrepresenting the number of measurements made on each of the waveforms; and (3) fabricating the numbers used to calculate the force instability results presented for Figure 2. Dr. Abbs used the same fabricated numbers in Figure 4.

To avoid the uncertainty and expense of litigation, Dr. Abbs and ORI agreed to resolve the case through a negotiated settlement (Agreement), which the parties agreed shall not be construed as an admission of liability or wrongdoing on the part of Dr. Abbs. As part of the Agreement, Dr. Abbs submitted a letter to ORI in which he addresses each of ORI's findings and explains in more detail the reasons for his decision to settle this matter on these terms. Dr. Abbs has agreed not to appeal ORI's jurisdiction or its findings and has further voluntarily agreed:

(1) To exclude himself voluntarily from serving in any advisory capacity to PHS, including but not limited to, service on any PHS advisory committee, board, and/or peer review committee, or as a consultant for a period of three (3) years beginning on March 28, 1996;

(2) That any institution which submits an application for PHS support for a research project that proposes Dr. Abbs' participation or that uses Dr. Abbs in any capacity on PHS supported research, or that submits a report of PHS funded research in which Dr. Abbs is involved, must concurrently submit a plan for supervision of Dr. Abbs' duties, designed to ensure the scientific integrity of Dr. Abbs' research, for a period of three (3) years beginning on March 28, 1996;

(3) That any institution employing Dr. Abbs be required to submit, in conjunction with each application for PHS funds or report of PHS funded research in which Dr. Abbs is involved, a certification that the data provided by Dr. Abbs are based on actual experiments or are otherwise legitimately derived and that the data, procedures, and methodology are accurately reported in the application or research report for a period of three (3) years beginning on March 28, 1996; and

(4) To submit a letter to the journal *Neurology* advising it of ORI's request to retract the *Neurology* paper.
